NEWS RELEASE – FOR IMMEDIATE RELEASE

HLH Walls Launches Customer Focused Website

Toronto, ON February 12th 2010 - Harder Luckey & Hargrave (HLH Walls) web site developers are pleased to announce the launch of a new corporate web site. The site represents a significant amount of research, analysis, and design.

"The goal is to provide visitors with an ease of use experience in gathering information for maintenance free alternatives in the sound mitigation wall industry," said Travis Welch, Director of Marketing for Harder Luckey & Hargrave (HLH Walls). "Our aim is for the website to be a repository full of useful information on our product line, including technical specifications, installation details, and dealer network support."

The new web site houses detailed product specification charts on each product line, high resolution pictures of the robust tongue & groove; easy to install noise wall systems, and detailed specification drawings in multiple elevation environments.

In the coming months, new site features will include a Dealer login page; including Dealer incentives and pricing, Dealer network news, an in-depth installation page including an installation video and knowledge base, and an HLH current projects page showing a staged approach of some interesting projects (jobs) being completed.

Company Profile

HLW Walls is the sole manufacturer of the Tuf-Barrier™, Silent Protector™, and the Silent Protector Plus™ noise wall systems: an industry leader in maintenance free alternatives in the sound mitigation wall industry. With corporate offices in the United States and Canada, HLH Walls sells its unique products worldwide through a network of affiliated dealers. The Tuf-Barrier™ and Silent Protector Plus™ sound barrier systems meet or exceed AASHTO guidelines for key mass requirements, wind loads and decibel reduction criteria.
